About Me

My name is Kenneth, a passionate 25 years old individual who loves technology, video games, music, coding and martial arts. These interests have been a significant part of my life since I was 5 years old, providing me an escape from problems and challenges. My most impactful professional experience was working on the development of the Cobby by PurpleCats ecosystem, Brazil's first crypto bank. My skill set includes Javascript, Typescript, PrismaORM, TypeORM, GraphQL, RabbitMQ, PostgreSQL/MySQL, Docker, Azure Devops, HTML, CSS and React/React-Native. I also have an intermediate B1 certification in English and a B1 certification in Japanese

Experience:

2022-2023

PurpleCats, Remote – *Backend Developer*

- Development
- Maintenance
- Integration with external systems
- Backend development for the Cobby ecosystem

2022-2023

BLUCCORE.IT, Remote – *Fullstack Developer*

- Web systems development from UI/UX to back and frontend delivering end-to-end solutions

Education

2020- 2025

Anhanguera College, Porto Alegre– *Bachelor's Degree in Software Engineering*
